

Spring plants

Today we are going to be learning about the signs of spring in plants.

In spring lots of plants start to grow. We start to see green leaves starting to sprout. We see blossoms on trees and plants such as daffodils, bluebells and snowdrops start to grow.

Out and About

Watch the video clip of a teacher going outside to look for signs of spring.

<https://www.youtube.com/watch?v=S5BmN-WCrfw>

Take a careful look at the different plants he finds.

Look closely outside, what signs of spring can you see?

☐

blossom

☐

bees

☐

buds

☐

frogspawn

☐

bluebells

☐

tadpoles

☐

daffodils

☐

lambs

☐

dandelions

☐

butterflies

Draw and label any other signs of
spring you can see.
