New Year

The New Year begins at midnight when 31st December ends and 1st January begins. It is often seen as a momentous occasion where people say goodbye to the past year and welcome in the new year.

But how did this changing of the year come about and how is it celebrated?

The Gregorian Calendar

The calendar was changed in October 1582 by Pope Gregory XIII, hence the name. Before this calendar was introduced, the Julian Calendar was used. The Pope made these changes so that Easter could be celebrated at the time of year it used to be celebrated by the early Church years before.

1st January is recognised as the day to commemorate the saints. Other countries and religions celebrate the start of the New Year on different days of the year.

New Year's Eve is also known as Old Year's Day or Saint Sylvester's Day.

New Year in Mexico

Mexicans celebrate the New Year by eating a grape with each of the 12 chimes of midnight, whilst making a wish with each chime. Their homes are decorated red, yellow, green and white to symbolise hopes for the coming year.

Mexican sweetbread is baked with a charm or a coin inside. The recipient of the coin or charm is said to be blessed with good luck.

Another tradition is to write down all the bad or unhappy things that happened to you during the year, and then throw the list into the fire. This symbolises the removal of all negative energy.

Due to the time differences around the world, the first country to welcome in the New Year is Kiribati, which is located in the Line Islands in the Pacific Ocean.

New Year in the United States

In the USA, it has become a tradition to watch the famous New Year Ball Drop in Times Square, New York. This tradition has been held since 1907 and is now replicated in other countries.

Central Park, also in New York, hosts a Midnight Run, which ends with a huge firework display.

New Year in Europe

In Europe, most people celebrate New Year with friends and family, throwing parties or going to pubs and bars. Often fireworks, games and a special meal are part of the celebrations too.

New Year in Scotland

In Scotland, New Year's Eve is called Hogmanay. People visit one another's houses and take gifts, traditionally a coin, bread, salt, coal and whisky. These represent prosperity, food, flavour, warmth and good cheer. In the Scottish capital, Edinburgh, the celebration is focused on a major street party along Princes Street. The cannon is fired at Edinburgh Castle at the stroke of midnight, followed by a large fireworks display.

A Time to Reflect

New Year is seen as a time to reflect on the past year and look forward to the new one. It is often a time when people make New Year Resolutions, which give people the chance to resolve to make changes in their lives. Adults might decide to change their jobs or move house, and children might resolve to do their homework, help more around the house or join a club.
