

Art / DT Enrichment

At Kings Avenue, we enrich the curriculum with visits and trips linked to the curriculum to ensure an exceptional Quality of Education.

In Art we visit a London Gallery every term and learn about great artists.

The most recent visit was to the Tate Modern where the children explored different pieces of art work and chose one to come back to school and study.

In DT every class took part in a bridges shop to further develop the children's knowledge about structures and how they can be made stronger.
