Head teacher: Miss R Mollett

Dear Parents and Carers,

As you know school opens this Thursday 3/9/20 at 8.45am. All children are expected to attend and please be reassured the school has followed all government guidelines to ensure that the children are as safe as possible.

School is open every day with a later finish of 3.45pm for Y2 upwards. If you have a child in R or Y1 with an older sibling and you would like them to stay in school until 3.45pm please let the class teacher know.

The following measures will be put in place to protect everybody;

- All children will be taught in bubbles of either their class, year or key stage,
- The staff attached to those bubbles will only work in those bubbles as much as possible to avoid contamination. If they come out of the bubbles they will socially distance
- The Executive Team (Miss Mollett, Ms Clarke, Miss Stephenson and Mrs Shah) will work across the school and socially distance at all times
- Classrooms have been organised so that children are facing the front
- The classrooms will be cleaned everyday
- Parents are not to enter the building unless they have an appointment where they will be met at the gate by a member of SLT. The school toilets are closed to parents. Please phone the school to speak to staff and make an appointment.
- The school has been marked with yellow dashes to show social distance
- Reception and Nursery will come in through the carpark and go through the side gate into the Nursery Playground.
- Y1&2 are coming through the car park into the side gate into the KS1 playground. Please stand on a yellow marking with your child.
- Y3&4 are coming through the far gate straight into the KS2 playground. Please stand on a marking with your child.
- Y5&6 are coming through the main gate straight into the cage. Please stand on a marking with your child

- At collection time the parents may come on site but not enter the building. Please enter through your allocated gate and stand on a yellow dash marking. You must then leave the playground immediately and quickly.
- Please walk to school if you can.

All staff want school and life to return to normal. We all miss the children and the vibrancy of normal school life. We are committed to this happening but need a measured and well-planned approach for this to be workable. We understand the pressure you are all under and empathise with you completely. We will work with you to help all children come back to school.

I will be in the playground every day and I look forward to seeing you all. Take care, and I'll see you on Thursday.

Miss R Mollett
